

Bin it!

This game is to help your child listen for sounds in words.

You will need a small bin or box to play this game.

Cut out the sounds and pictures attached and check that your child knows each one before you start. Place a sound on the floor or table and spread out the pictures face down.

Choose a picture and say the word for your child. Ask him or her to listen to the first sound in the word. If the word has the sound at the beginning your child wins the picture. If the word has a different sound at the beginning your child can throw the picture in the bin!

Continue until all the words have been sorted.

If your child makes a mistake repeat the word emphasising the first sound.

Variations

To make this game easier use fewer pictures.

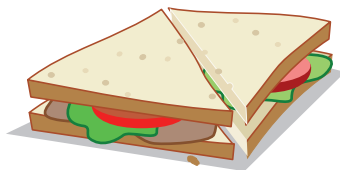

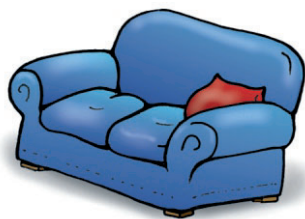

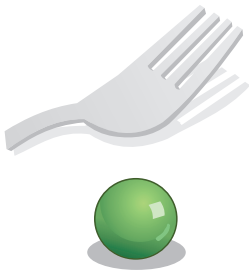

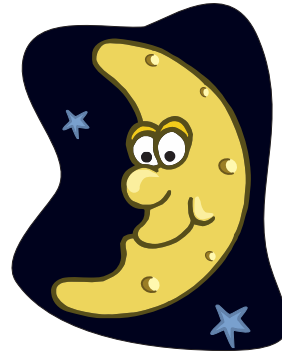

To make this game harder ask your child to put the words in sentences.
